Sellers Pride shows from the exterior of the home to the interior space. At over 2300 Sq of living space, you will be amazed at the great footprint of this home. Nothing will prepare you for what you will find in the back yard. A hidden gem of a garage welcomes you home. With three bays of usable space, you can house two vehicles out of the weather. Third bay is your very own workshop equipped with water, electricity and cable. The seller spent many of hours tinkering away in comfort. Additional parking for 4 cars makes this such a sweet extra that is not found in many homes in the heart of town. This home has another unique space and as you enter through the back door, you will be wowed by the large addition 4 season room with sliders to the front yard. Lots of natural light makes this a very inviting room. Enter through the hallway that includes a first-floor laundry and full bath before making your way into the updated kitchen, that has enough space to hold a table and chairs for in - kitchen eating that is fully open to two large rooms. Middle room has a supplemental heating source and French doors that open to 4 season room which will receive heat from fireplace if left open. This concept makes for a good entertainment area. The front living room has wood-built ins for even more character. Upstairs boasts a newly remodeled full bath and large primary bedroom. The secondary bedroom is a walkthrough to the third with a
